1 New Logo

After a thoughtful and collaborative process, we are thrilled to unveil the new logo that will proudly represent our association!

A heartfelt thank you goes to the incredibly talented Katie Roberts from The Understorey for bringing our vision to life with such creativity and care.

In Katie's own words, here are the design elements and inspirations that shaped the final logo we've chosen.

"The logo for the Hobart Ladies Badminton Association is a modern and bold representation that balances athletic strength with femininity. Drawing inspiration from the structured lines of a badminton racket, the design incorporates clean, geometric elements that reflect the sport's precision and energy. Contrasting these straight lines are smooth, flowing curves that symbolise femininity and movement.

The icon subtly shows a stylised "H" for Hobart, which, when repeated, forms a flower shape as a symbol of friendship, community and growth among players. This icon can be used independently, offering versatility across brand applications."

We're excited about the possibility of featuring our new logo on t-shirts, jackets, and more, perfect for proudly representing our association both on and off the court!

behind the scenes each week to keep everything running smoothly. The time and care Christine puts into organising our rosters is truly appreciated by us all!

3 Eggs

We extend our sincere thanks to Glenn from Sun Valley Poultry Farm for his many years of supplying us with fresh eggs. Glenn has now retired, and as a result, eggs will no longer be available for sale.

We're grateful for his long-standing support and wish him all the best in his retirement.

4 Square Reader

We're pleased to share that we'll soon have a Square Reader available to make it easier to pay weekly playing fees and for any upcoming events.

A big thank you to our dedicated Treasurer, Lynne Lyden, for organising this fantastic addition and for supporting our division reps in getting everything set up.

We appreciate your patience as we all get familiar with this new system.
